Johan Olsson (Guest) Note! This text has been translated by Google Translate. Show original Strengths: amazing ice grip Wonderful in wide nipist pist, it chose the shorter shorter for a shorter swing radius pumping pillows like kings could have been a bit wider stable as a fan Weaknesses: Could have been broader, but then they would have worked worse in the piste. Summary: Best ski I was on Model year: 2008 Riding style: powder Length on the ski: 175 cm Riders weight: 72 kg Riders length: 187 cm 19/06/2008 (Modified: 24/09/2009) Note! This text has been translated by Google Translate. Show original Strengths: Stable skiing Good edge grip Easy to drive in high traffic Stable outside the piste Do not flutter anything over the top (I can do that I'm a light skier)
